

## CV, Kambiz Diba

*Kambiz Diba, Professor of Medical Mycology*

*Academic member at School of Medicine, UMS University, Urmia, Iran*

*A part time instructor of Medical Mycology at School of Medicine, Urmia AZAD University*

*Director of EDO and Medical Accreditations, School of Medicine, Urmia AZAD University*

---

### Research Activities during 2018-2024

Frequency and Antibiotic Resistance Patterns of Isolated Bacteria from Burn Wounds Infections in Imam Khomeini Medical Center in Urmia, S Afshar Yavari, F Farajzadeh, K Diba, J Kazemzadeh, Journal of Research in Applied and Basic Medical Sciences, 2024 10 (1), 13-22

Silver resistance in Pseudomonas aeruginosa and Acinetobacter baumannii isolated from burn patients, F Farajzadeh, K Diba, J Kazemzadeh, SA Yavari, Immunopathologia Persa, 2023 9 (2), 39498-39498

Monitoring of Opportunistic Fungal Infections in Cases with PJP Symptoms Enduring Kidney Failure Diseases, NJ Barbin, KH Tappeh, K Diba, K Makhdomi, M Rabieipour, Eurasian Journal of Chemical, Medicinal and Petroleum Research, 2023 2 (2), 69-74.

Erratum for Badiee et al., "Multicenter Study of Susceptibility of Aspergillus Species Isolated from Iranian University Hospitals to S Antifungal Agents", P Badiee, T Boekhout, A Zarei Mahmoudabadi, R Mohammadi, Microbiology Spectrum, 2023 11 (4), e02255-23

Candida africana vulvovaginitis: prevalence and geographical distribution, H Fakhim, A Vaezi, J Javidnia, E Nasri, D Mahdi, K Diba, H Badali, Journal de Mycologie Médicale 30 (3), 10096

Frequency of occurrence, seasonal variation and antifungal susceptibility of opportunistic Mucorales isolated from hospital soils in Iran, A Vaezi, G Walther, O Kurzai, D Mahdi, M Dadashzadeh, E Nasri, K Diba, ... Mycoses 64 (7), 780-787.

Electrospun wound dressing as a promising tool for the therapeutic delivery of ascorbic acid and caffeine L Avizheh, T Peirouvi, K Diba, A Fathi-Azarbayjani Therapeutic Delivery 10 (12), 757-767.

Candida africana vulvovaginitis: prevalence and geographical distribution H Fakhim, A Vaezi, J Javidnia, E Nasri, D Mahdi, K Diba, H Badali Journal de Mycologie Médicale 30 (3), 100966

Susceptibility pattern of Candida albicans isolated from Iranian patients to antifungal agents P Badiee, H Badali, K Diba, AG Moghadam, A Hosseinasab, H Jafarian, ... Current medical mycology 2 (1), 24

In Vitro Interaction of Geldanamycin with Triazoles and Echinocandins Against Common and Emerging Candida Species S Mahmoudi, S Rezaie, R Daie Ghazvini, SJ Hashemi, H Badali, ... Mycopathologia 184, 607-613.

Monitoring of Opportunistic Fungal Infections in Cases with PJP Symptoms Enduring Kidney Failure Diseases NJ Barbin, KH Tappeh, K Diba, K Makhdomi, M Rabieipour, ... Eurasian Journal of Chemical, Medicinal and Petroleum Research 2 (2), 69-74

Screening of Erg11 mutant gene in drug-resistant Candida albicans isolated from women with recurrent vulvovaginal candidiasis K Diba, S Golmohammadloo, A Faeghi, A Namaki, MEDICAL MYCOLOGY 56, S86-S86

Uncommon non-albicans Candida species isolated from renal transplant recipients: Species distribution and Susceptibility profiles, K Diba, K Makhdoomi, N Jazani, A Chawshin, H Fakhim, P Badiiee, MEDICAL MYCOLOGY

Aspergillus diversity in the environments of nosocomial infection cases at a university hospital

K Diba, K Makhdoomi, N Moshiri, F Jangi, A Namaki, MEDICAL MYCOLOGY 56,

Aspergillus diversity in the environments of nosocomial infection cases at a university hospital

K Diba, K Makhdoomi, N Moshiri, F Jangi, A Namaki  
MEDICAL MYCOLOGY 56,

Identification of Candida albicans species complex in vulvovaginal candidiasis by using conventional methods, hwp1 gene polymorphisms and MALDI-TOF MS profiles

E Nasri, H Fakhim, K Diba, A Namaki, A Arastehfar, W Fang, A Vaezi, ...  
MEDICAL MYCOLOGY 56,

Introduction of an Aspergillus PCR assay to the clinical mycology service in Iran.

K Diba, H Mirhend, N Jalalizand, S Aboutalebiyan  
Current Medical Mycology 4.

Hospital sources of common Candida infections at the educational hospitals.

S Javanmard, K Diba, N Javanmard  
Current Medical Mycology

Chronic Urticaria Hypersensitivity to Candida albicans and other fungi colonizing in gastrointestinal tract.

K Diba, S Shahabi, D Jabbari  
Current Medical Mycology

Occurrence and distribution of pathogenic Mucorales in hospital environmental soil samples from Urmia, Iran.

D Mahdi, M Dadashzadeh, K Diba, H Fakhim  
Current Medical Mycology

Drug resistance and hospital sources of Aspergillus species causing HAI at a medical educational center in Urmia.

K Diba, H Fakhim, S Aboutalebiyan  
Current Medical Mycology

Conventional identification of fungal species isolated from patients with otomycosis in Urmia, Iran.

M Dadashzadeh, D Mahdi, P Esmaeilzadeh, E Nasri, K Diba, H Fakhim  
Current Medical Mycology

Common fungi and major factors of the contaminations at the indoor of student dormitories.

K Diba, Z Yekta, Z Alizadeh, PH Abharian  
Current Medical Mycology

Prevalence of drug-resistant Candida species causing recurrent vulvovaginal candidiasis.

K Diba, S Golmohamadloo, A Faeghi, M Kheirkhah  
Current Medical Mycology

In vitro and in vivo activities of novel azole compounds ATTAF-1 and ATTAF-2 against Candida species.

H Fakhim, A Vaezi, S Emami, SM Hashemi, L Faeli, K Diba, E Dannaoui, ...  
Current Medical Mycology

Types and Concentration of Fungal Bioaerosols in the Indoor Air of Various Units of Three Teaching Hospitals

کامبیز دبا، مریم شاهپلنگی، فهیم امینی، علی احمد آقاپور،  
Journal of Health System Research 15 (1), 33-41

Characterization of ERG11 Gene in Drug-Resistant Candida Albicans Isolated from Iranian Cases of Recurrent Vulvovaginal Candidiasis

K Diba, S Khademvatan, K Jaafari, S Abharian  
Journal of Research in Applied and Basic Medical Sciences 6 (3), 153-159

RAPD PCR and actA based molecular typing of *L. monocytogenes* isolated from human, food and domestic animals in northwest of Iran  
A Hemmati, K Diba, S Parvin, E Ohadi, BS Kalani, L Lotfollahi  
Meta Gene 26, 100790

Albumin and caffeine-loaded nanofiber for topical wound healing  
F Saadat, T Peirouvi, K Diba, AF Azarbayjani

Epidemiology and Antifungal Susceptibility of *Candida* Species Isolated from 10 Tertiary Care Hospitals in Iran  
P Badiie, T Boekhout, P Haddadi, R Mohammadi, A Ghadimi-Moghadam, ...  
Microbiology Spectrum 10 (6), e02453-22

Comparison Of Current Diagnostic Methods And Molecular Identification Of *Pneumocystis Jirovecii* Causing PJP In Cases Immunosuppressed Patients At The Nephrology Ward, Imam ...  
NJ Barbin, KH Tappeh, K Diba, K Makhdoomi, S Khademvatan  
Journal of Pharmaceutical Negative Results, 1953-1966

S10. 3d Yeast Microbiome in patients with inflammatory bowel disease (IBD)  
A Vaezi, H Fakhim, M Jabbari, E Nasri, MRH Azar, K Diba, H Badali  
Medical Mycology 60 (Supplement\_1), myac072S103d

P183 Monitoring of *candida* colonization in the respiratory tract of COVID-19 cases  
K Diba, K Makhdoomi, R Nejadrahim, A Namaki  
Medical Mycology 60 (Supplement\_1), myac072P183

P182 Mucormycosis in Northwest Iranian cases with a history of delta COVID-19, a brief report  
K Diba, R Samarei, R Nejadrahim, A Namaki  
Medical Mycology 60 (Supplement\_1), myac072P182

In vitro activity of juglone (5-hydroxy-1, 4-naphthoquinone) against both fluconazole-resistant and susceptible *Candida* isolates  
A Vaezi, M Moghadaszadeh, E Nasri, S Gharibi, K Diba, A Matkowski, ...  
Revista Iberoamericana de Micología 39 (2), 50-53

Actividad in vitro de juglona (5-hidroxi-1, 4-naftoquinona) frente a aislados de *Candida* susceptibles y resistentes a fluconazol  
A Vaezi, M Moghadaszadeh, E Nasri, S Gharibi, K Diba, A Matkowski, ...  
Revista Iberoamericana de Micología 39 (2), 50-53

Identification of *Candida* and *Geotrichum* fungi colonized in the gastro-intestinal tract of patients with chronic urticarial  
K Diba, S Shahabi, H Fakhim

Actividad in vitro de juglona (5-hidroxi-1, 4-naftoquinona) contra aislamientos de *Candida* resistentes y sensibles a fluconazol  
A Vaezi, M Moghadaszadeh, E Nasri, S Gharibi, K Diba, A Matkowski, ...  
Revista Iberoamericana de Micología 39 (2), 50-53

Comparison of diagnostic methods (wet mount, trichrome staining, formol-ether, PCR, and xenic in vitro culture) for the detection of *Blastocystis* in stool samples in Urmia ...  
R Zamani, S Khademvatan, KH Tappeh, K Diba, E Abasi  
Annals of Parasitology 67 (4), 795-803
